ABDULLAH MADANI

Pickering, ON
437-365-1761 | amadani4@my.centennialcollege.ca | LinkedIn

Junior Software Developer
Motivated | Detail-Oriented | Adaptable

SUMMARY OF QUALIFICATIONS

- A collaborative Software Engineering Technology student, specializing in Artificial Intelligence
- Brings a strong foundation in software development, web technologies, and problem-solving
- Hands-on experience through academic labs, projects, and coursework in programming and system design
- Strong analytical and debugging skills developed through structured coding assignments
- Effective communicator with ability to work independently and in team-based environments
- Highly motivated individual, who is eager to learn and contribute in a professional setting

---

TECHNICAL SKILLS

- **Programming:** Python, JavaScript, C#, HTML5, CSS3, SQL, Java
- **Software Concepts:** Object-Oriented Programming, Algorithms, Data Structures
- **Tools & Platforms:** Visual Studio Code, GitHub, Microsoft Word, PowerPoint
- **Operating Systems:** Windows, Linux commands

EDUCATION

Software Engineering Technology - Artificial Intelligence (Co-op) Advanced Diploma   May 2025 - Pres.
Centennial College, Toronto, ON   *GPA: 4.0 (A)*

Select Coursework:
- Programming Fundamentals (Python, C#)
- Web Interface Design (HTML, CSS, JavaScript)
- Software Engineering Fundamentals
- Database Concepts (SQL)
- Introduction to Artificial Intelligence

ACADEMIC PROJECTS

Web Interface Design Project
- Designed responsive web pages using HTML and CSS
- Applied mobile-first design principles and layout structuring
- Tested and refined layouts for usability and accessibility

Python Programming Assignments
- Developed programs using functions, loops, dictionaries, and lists
- Implemented file handling and data processing logic
- Debugged and tested code to ensure correct output and efficiency

Software Engineering Coursework
- Created UML diagrams including use case, activity, and class diagrams
- Applied software development life cycle concepts to academic scenarios
- Collaborated in group-based assignments following structured requirements
